It might look like I dont have many facials on the menu...

. ... but it couldn't be further from the truth.

Effortless Curves creates bespoke facials that are unique to you and your skin. This creates thousands of treatment combinations with endless opportunities to create your healthiest and happiest skin possible!

I believe that your skin is as unique as your fingerprint – and so, your skin treatments should be equally personal. This is why I work with Dermaviduals: a suite of products that can be combined to create a range of personalised bespoke facial treatments. Dermaviduals have created customised skin solutions with advanced skin mimicking creams. This ground breaking engineering process makes the dermaviduals delivery process truly unique. The dermaviduals active ingredients have been proven to permeate through the skin's barrier, in the most pure form, providing the most accurate and responsive delivery system leading to exceptional results.

At Effortless Curves, each facial is tailored to address your skin's individual needs, ensuring you receive the best care and results.

You get to decide how much time and money you wish to invest and working within those guidelines, your bespoke facial will be created and tailored to your skin by your experienced therapist without being restricted by a pre-set facial recipe that isn't the perfect fit for you.

Each of these facials can be custom designed to target:

- Acne • Scarring • Congestion • Dehydration
- Dryness • Redness • Rosacea • Ageing
- Sensitivity • Pigmentation and so much more

Facial Consultation

Each facial begins with a brief discussion to assess your skin between visits, followed by the most amazing custom made facial you will ever have. Combined with all the elements of decadent luxury and serious skin treatment results!

Bespoke Facials

At Effortless Curves we've taken the guess work out for you. Each facial level allows for more options and time to customize bespoke solutions to take your skin health to the next level and it provides extra time to indulge and pamper you! Each facial level includes an LED light therapy session which works non-invasively at a cellular level to restore, renew and revive your skin.

Level One Bespoke Facial

Perfect for maintenance after a course of treatments or a great introductory facial if you've never worked with us before, the Level One Bespoke Facial will address your main skin concerns. Your products and actives will be handpicked by your therapist to target your concerns to give an instant, healthy glow.

• Price \$99 • Time 45 mins

Level Two Bespoke Facial

Designed with more power than Level One, Level Two will work on how your skin is functioning and begin to create cellular changes. By having more treatment options, your therapist can tailor a treatment that will leave your skin renewed and your mind and body feeling completely refreshed.

• Price \$129 • Time 60 mins

Level Three Bespoke Facial

A 90-minute restorative deluxe treatment that aims to illuminate the skin by strengthening its natural support system. The skin is refined, repaired and brightened using potent actives giving back to the skin hydration, firmness and radiance. Your deluxe treatment will be customised for you and your skin whilst we nurture you with all the extras.

• Price \$149 • Time 90 mins
